DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it is vague and indefinite what the first (t_1) and second (t_2) time differences refer to with respect to their distances. Further, it is unclear how the distances (a) and (r) correspond to the time differences.

Further, online 6, "canbe" should be "can be".

Allowable Subject Matter

3. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. The following is a statement of reasons for the indication of allowable subject matter:

The instant claim is allowable over the prior art of record by claiming a method for determining the distance of a transceiver located within a lumen from the center of the lumen and for determining the radius of the lumen. The lumen cross-section is substantially circular at the transceiver location. The method applied on data received

from a transceiver placed at a position within the lumen that is a distance from the center and a distance from the wall, transmitting a signal of known velocity that can be correlated with the time of flight and receiving a first signal and a second signal that are reflections of the transmitted signal, timing the time differences between the transmission of the transmitted signal and reception of the first (t1) and second (t2) reflection signals, the method comprising:

Calculating the distance of the transceiver from the center of the lumen = $(t1 - t2)v/4$; and

Calculating the radius of the lumen = $(t1 + t2)v/4$.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
